As the conference was aiming at disseminating the project and promoting a dialogue between European partners and local institutions, local partners were invited to attend the conference and to participate in the exhibition. After the presentations, visitors had

the opportunity to discuss and exchange with the partners and to have a look at their outcomes.

The conference was concluded by a European evening with a buffet delivered by the local association Iran Solidarity (their work aims at secularising and democratising the Iran).

Day 3

1. feedbacks

All partners

- Feedbacks about the final conference and the whole project (interviews were realised with a representative of each partner organisation)

2. perspectives and valorisation

Sabine Wiemann, BUPNET

- presentation of the [new generation of European programmes](#) with the focus on relevant programmes for the partnership and discussion about a possible further cooperation. Due to external constraints, a further collaboration in the framework of a new project seems to be difficult or impossible for some partners. The University of Latvia expressed clearly the interest of realising new projects. The network will continue to exist under the roof of blinc ([blended learning institutions' cooperative](#)). Partners will be kept informed about new project ideas. Products and outcomes will be disseminated through blinc and the partner institutions.
